

Google Merchandise Store E-commerce Performance

Nov 2020 - Jan 2021 | Static Dataset

270,154

Unique Users

\$362,403

Total Revenue

Project Context:

Google Merchandise Store GA4 event data (Nov 2020 – Jan 2021, 92 days). Static snapshot used to analyze traffic, conversion funnel, device behavior, revenue trends, and customer value.

 For detailed views, navigate using the tabs below (Traffic Sources, Devices, Funnel, Revenue, Products, Customers).

360,129

Total Sessions

4,848

Sessions with Purchases

1.35%

Conversion Rate*

Overall conversion from session to purchase is **1.35%**, driven by strong checkout completion but large drop-offs before product view; detailed funnel and traffic insights are shown on the following pages.

**Conversion rate is calculated as sessions with at least one purchase divided by total sessions.*

Traffic Sources

360,129

Sessions

333,388

Users

All KPIs and charts respond to the filters on this page.

Tip: Click a source bar to filter the channel metrics and KPIs.

Source / Medium	Sessions	Users	Revenue	Conversion rate
google	128,296	119,015	\$104,939	1.09%
<Other>	97,289	94,406	\$81,150	1.11%
(direct)	83,459	75,951	\$79,711	1.29%
(data deleted)	22,236	17,951	\$50,089	3.14%
shop.googlemerchandisestore.com				

100%

Channel Revenue Contribution (%)

Insights

- *Google* leads volume: Drives the **most traffic** and **revenue**, though conversion (1.09%) trails the site average.
- *Direct traffic*: Generated 22% of revenue, signaling strong brand awareness from bookmark/URL visits.
- *Channel Conversion Rate*: $\text{Conversions} \div \text{Sessions}$ (for the selected channel / source)
- *(data deleted)* entries indicate privacy-thresholding where GA4 withholds data to protect user anonymity.
- *<Other>* entries represents aggregated low-traffic sources representing anonymized sources/mediums.

Device Performance & Conversion

360,129

Sessions

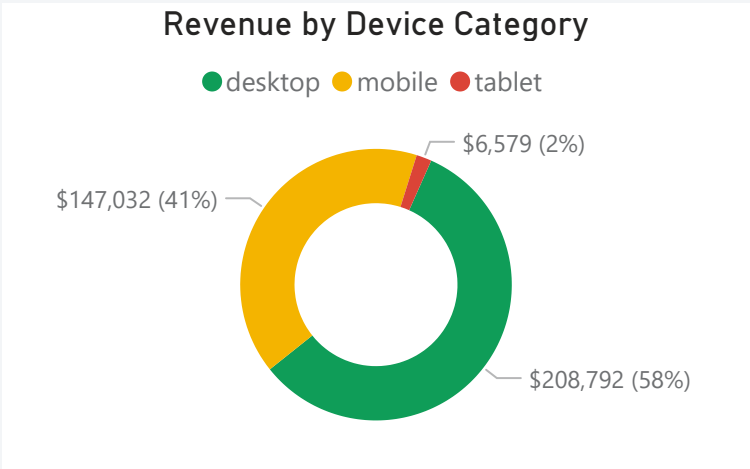

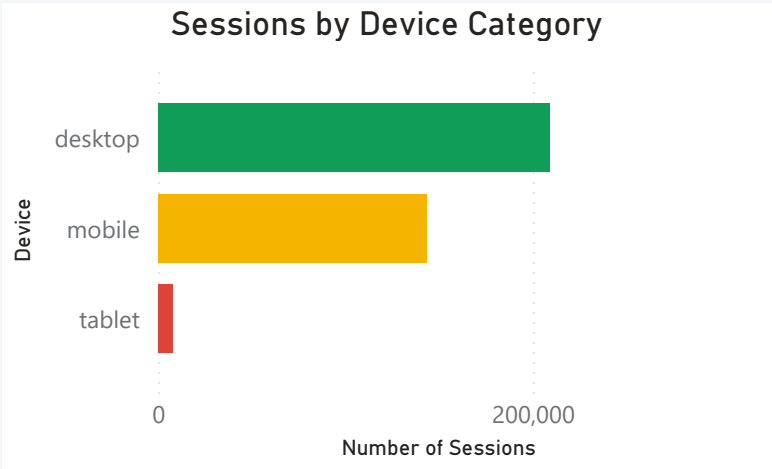

\$362,403

Revenue

1.35%

Device Conversion Rate (%)

All KPIs and charts respond to the filters on this page.

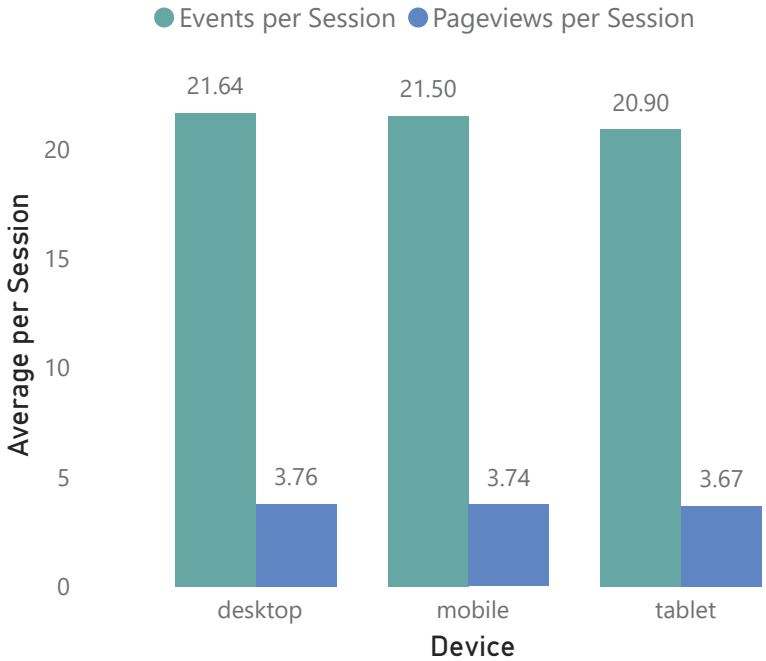

Device	Revenue	Sessions	Users	Conversion rate	Events per Session	Pageviews per Session	% of Sessions	% of Revenue
desktop	\$208,792	208,942	158,917	1.32%	21.64	3.76	58.02%	57.61%
mobile	\$147,032	143,185	109,195	1.39%	21.50	3.74	39.76%	40.57%
tablet	\$6,579	8,002	6,250	1.30%	20.90	3.67	2.22%	1.82%

- Device Conversion Rate = Sessions with purchase ÷ Sessions (per device).
- Avg revenue per converted session is total revenue ÷ sessions with purchase.

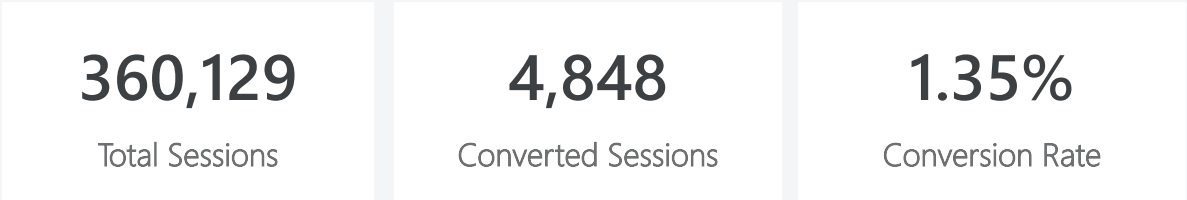

Insights

Desktop drives the most traffic (58%) and revenue, though mobile converts slightly better (1.39% vs 1.32%) with equally strong engagement. Tablet impact remains minimal (<3% of both traffic and revenue).

Engagement per Session by Device Category

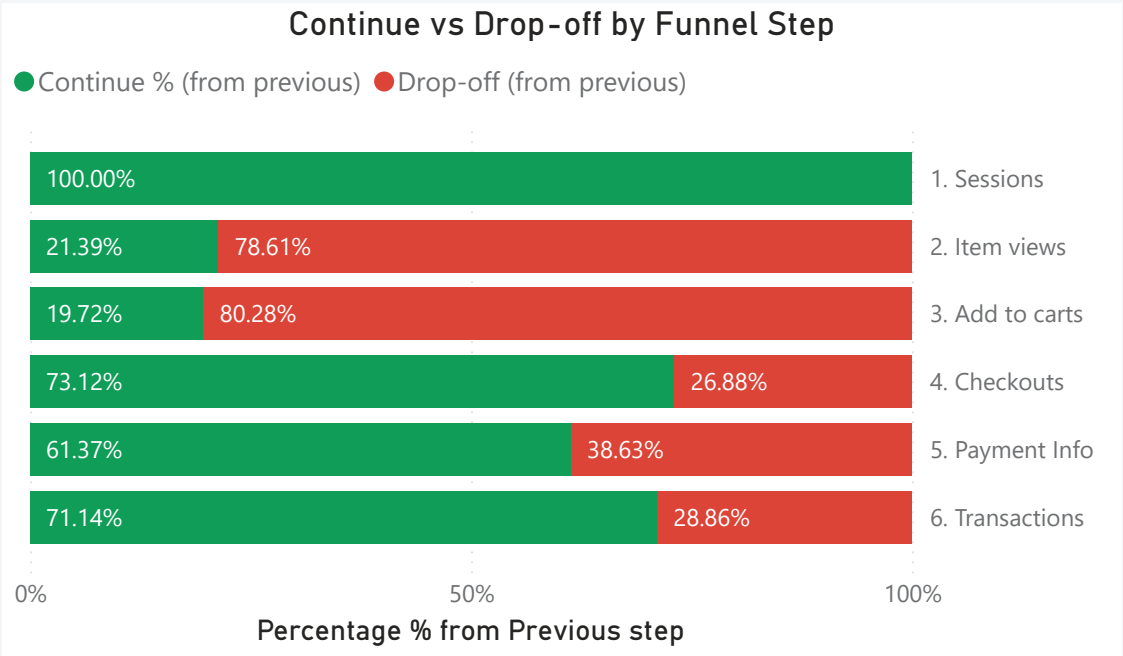

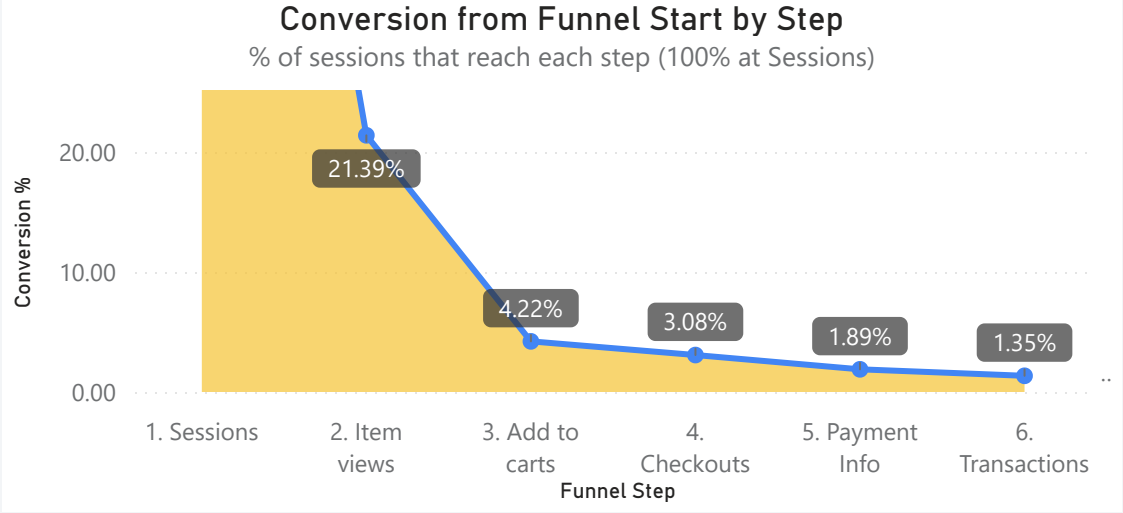

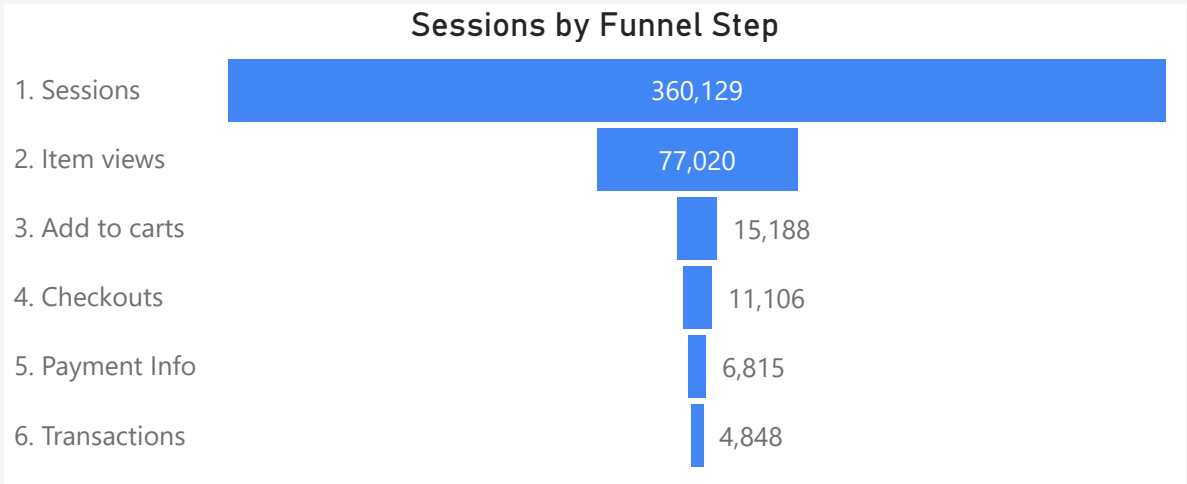

Conversion Funnel

Cards show totals for the full period (not affected by page filters).

**Insights**

- **Sessions → Item Views (21.39%)**: Only 1 in 5 visitors view product details, indicating potential issues with product discovery.
- **Item Views → Add to Cart (19.72%)**: Significant drop-off suggests product pages may need optimization.

Revenue Trend Over Time

\$362,403

Revenue

4,848

Sessions with Purchases

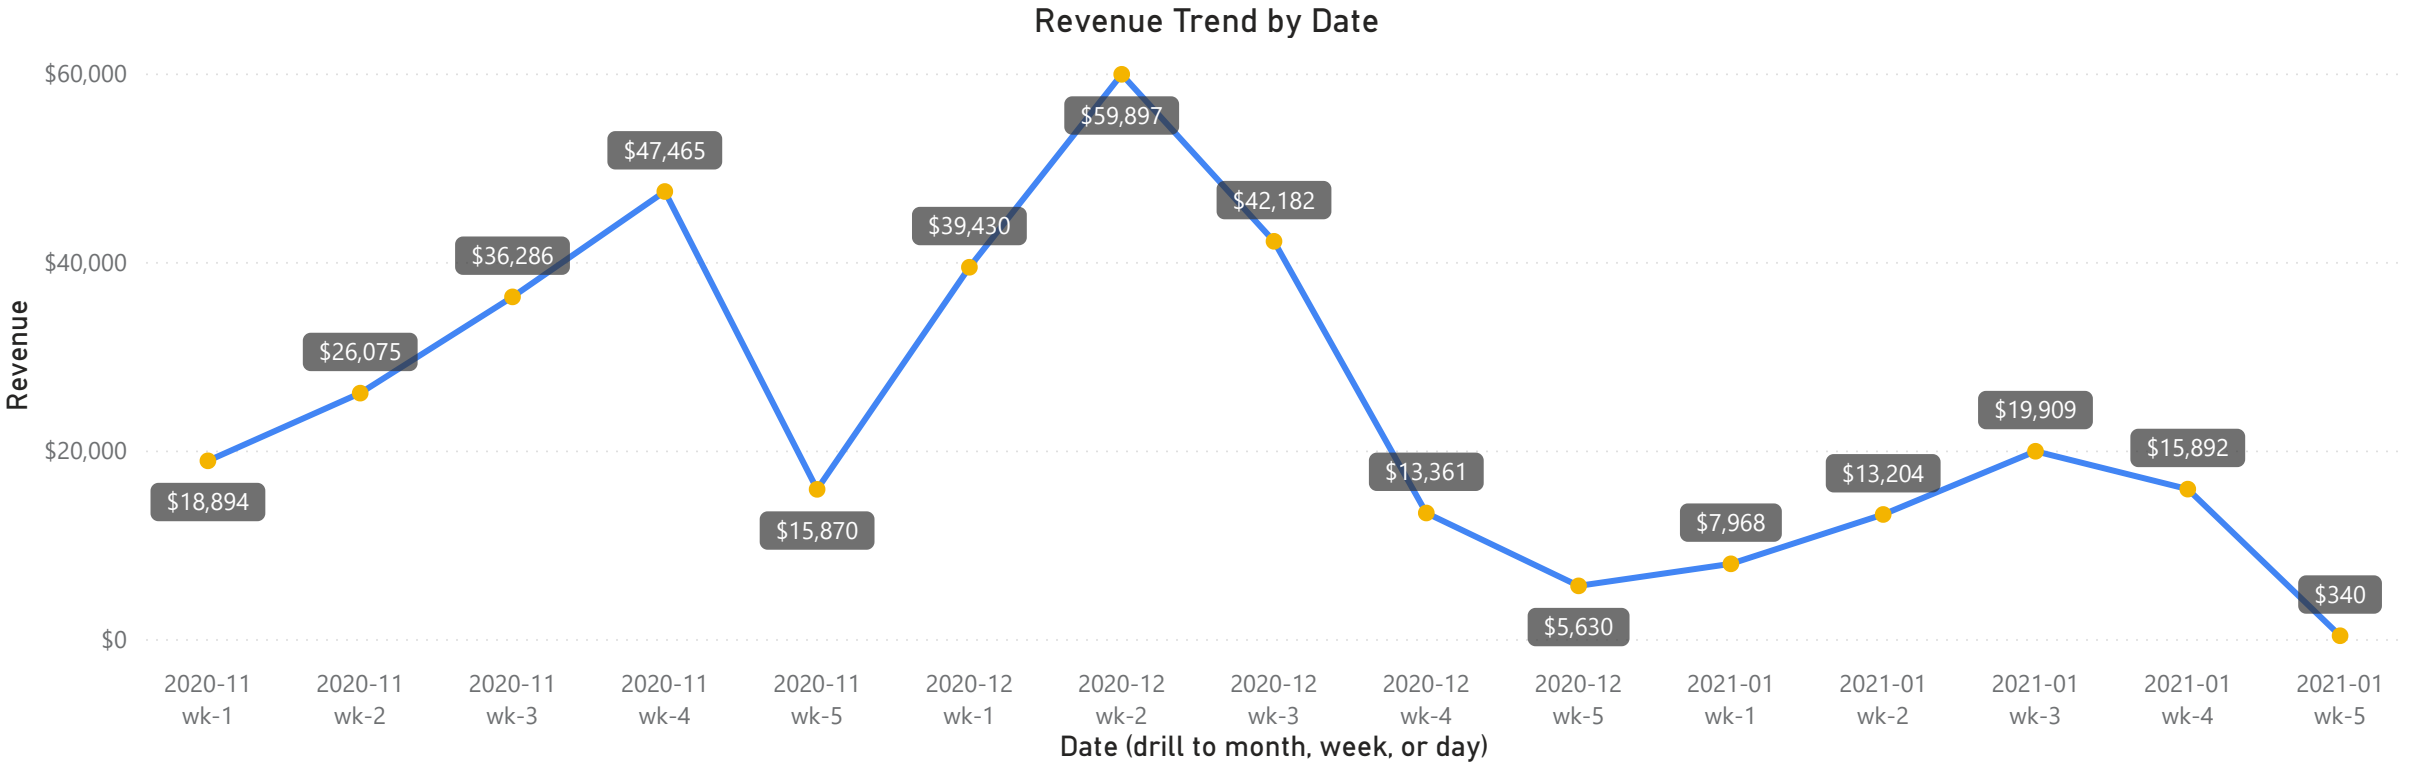

\$74.75

Average Revenue per Session
(with purchases)

 **Insights**

- Revenue **spikes in late November**, aligning with Black Friday / Cyber Monday promotions.
- Revenue **peaks in December**, driven by the holiday shopping season, before **dropping sharply in January** as post-holiday demand slows.

All KPIs respond to the filters on this page.

Product Sales Performance

Tip: Change the ranking criterion (revenue or units sold) and Top N value to explore which products drive sales in different months.

- Blue-highlighted products (if any):
- Appear in *more than one* of the selected months
 - Consistently rank among the *top performers*

8
Unique Products

Insights

- Across the holiday period, **outerwear** products (hoodies and sweatshirts) consistently rank among the top **revenue**-generating items each month.
- Ranking by **units sold** surfaces **high-volume, lower-priced** accessories, which differ from the high-revenue apparel items that lead when ranking by Revenue.

Customer Purchase Frequency

4,066

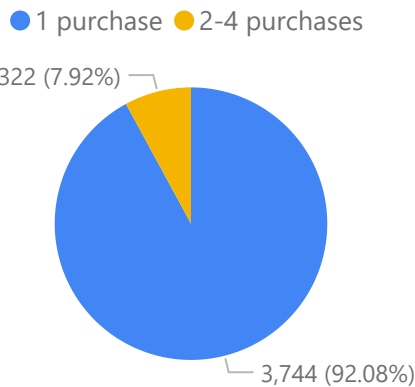

Customers with Purchases

92.08%

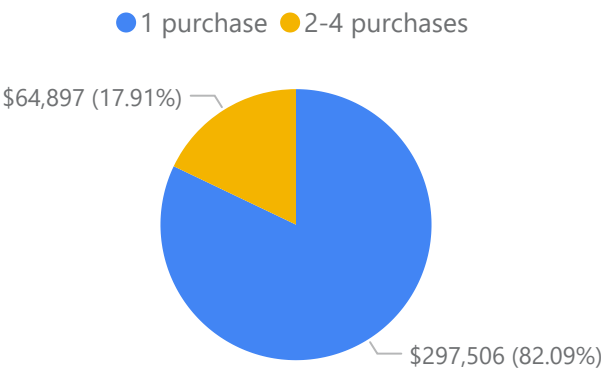

Customers with only 1 Purchase

Cards show totals for the full period (not affected by page filters).

Customers by Purchase Frequency

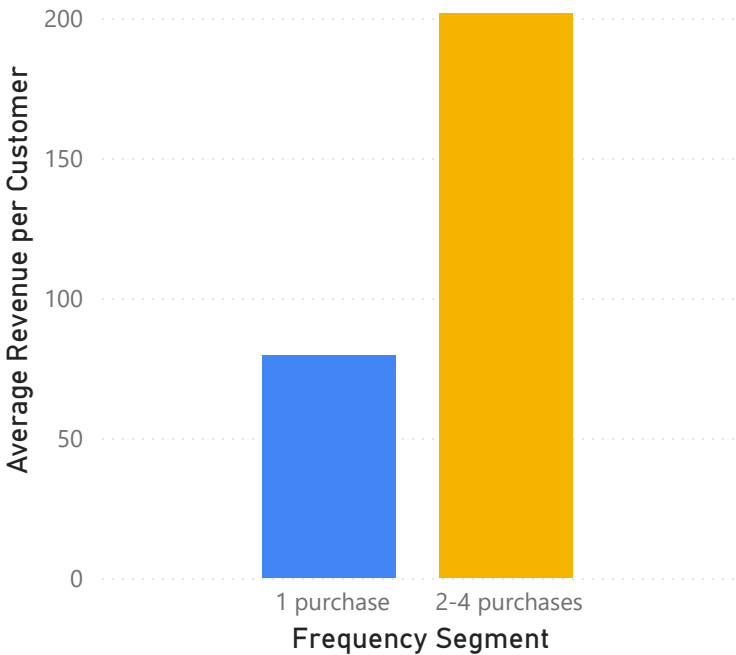

Revenue by Purchase Frequency

💡 Insights

Repeat buyers (2–4 purchase sessions) are only 8% of customers but generate ~18% of revenue and spend about **2.5 times more** per customer than one-time buyers.

Average Revenue per Customer by Frequency

Frequency Segment	Customers	% of Customers	Sessions w Purchases	Revenue	Avg Revenue per Customer
1 purchase	3,744	92.08%	3,744	\$297,506	\$79.46
2-4 purchases	322	7.92%	702	\$64,897	\$201.54
Total	4,066	100.00%	4,446	\$362,403
